6. When your client clicks on your link, it will direct them to your branded home page and ask them to enter their mobile number, Email, First and last name.

7. Taxpayers will receive a text mssg inviting them to download your app.

8. Taxpayers will install the app, locate the icon and create an account. Everything else will work similar to last year's TTG app.

# TAX PREPARER EXPERIENCE

1. Taxes ToGo Clients (TTG) – Utilizing your custom App eliminates the need for your Taxpayer to provide you a code to retrieve their data into your software. Now, when your client is done entering information into the app the data will automatically appear in your *TTG Clients Queue*

2. When you are ready to begin work on that clients return, simply click the Claim button to the right of their name and BOOM!

3. The return will automatically open and take you to the Personal Information Page. Review the page for accuracy and continue.

4. All of the pictures scanned into the app will auto load into your Scanned Documents Tab.
